

Measuring Guide

Use this Guide along with the "How to measure your kitchen" video (<u>www.clearwater-kb/howtomeasure</u>) which will give you step-by-step instructions on how to measure and create a floor plan (aerial view) of your space.

You Will Need:	Таре Measure	Pen/Pen		This Measurina Guide	
Name:		Phone:			
Email:		Door Style/	Door Style/Finish:		
Address:		City:	State:	Zip Code:	

Please use the example below for your reference while creating the floor plan of your space.

Utility/Mechanical Legend: Use these symbols on your floor plan.

\$ Light Switch

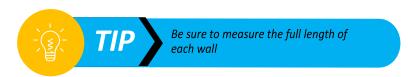

Step 1: Measure Your Space

- Starting in the left corner, measure each wall in the space that will contain cabinets. Record those measurements (in inches) on the "Floor Plan Design Grid" located on the last page of this Measuring Guide.
- Number each wall on the floor plan.

Step 2: Doors, Windows, Room Openings

- Locate and measure doors, windows, and room openings.
- Record and Number each door, window and room opening on the grid.
- Record the corresponding dimensions in the measurement charts below.

When measure openings such as doors and windows include the trim/casing in the dimensions.

Door/Opening Measurements

*Label on Floorplan using the corresponding numbers below

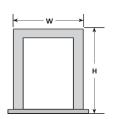

Opening	Width	Height	Notes:
Opening or Door			
1			
2			
3			
4			

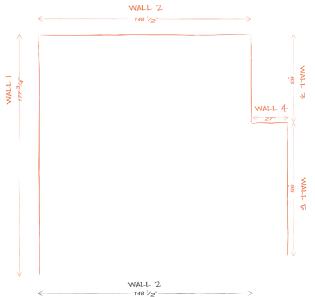

W — H

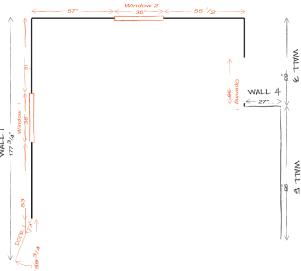

Windows Measurements

*Label on Floorplan using the corresponding numbers below

	Width	Height	Notes:
Window			
1			
2			
3			
4			

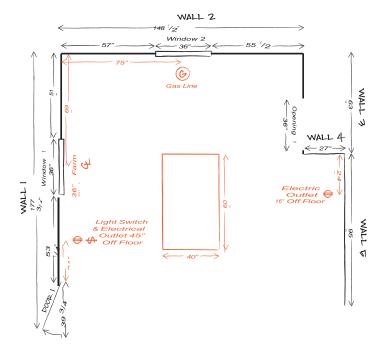

Step 3: Obstacles

- Locate and measure obstacles such as electrical outlets, vents, pipes, radiators, etc.
- Record any islands or bars you already have or wish to add.
- Record and Number each obstacle on the grid.

Step 4: Appliances

Common appliances typically come in standard sizes. Luxury appliances such as cooktops, range hoods, warming drawers, and wine chillers have dimensions that can vary drastically.

*It is important to pick out your appliances BEFORE your cabinets because we will need to fit your cabinets AROUND your new appliances.

TIP

Send us manufacturer specification sheets and installation guides if possible.

Range			
Brand/Model	Width	Depth	Height
Microwave			
Brand/Model	Width	Depth	Height

Dishwasher			
Brand/Model	Width	Depth	Height
Cook-Top			
Brand/Model	Width	Depth	Height
Oven			
Brand/Model	Width	Depth	Height
Other			
Brand/Model	Width	Depth	Height

Step 5: Ceiling Height

Accurate ceiling height measurements are very important when determining which wall cabinets and crown moulding you want in your new kitchen. It is very important to take several measurements since the height can vary in different spots in the room. Many older homes have soffits above their wall cabinets that need to be taken into consideration when creating your design.

Measure the height of 3 areas & record the shortest dimension.

A = Ceiling Height

Ceiling Height:

Soffits (the area between the top of the wall cabinet and the ceiling).

Does the room have soffits?

If yes, please mark the diagram to the right.

□ Yes □ No

Do you plan to keep the existing soffits?

□ Yes □ No

Please check any additional items you are interested in adding:

- □ Base Molding
- ☐ Crown Molding
- ☐ Crown Molding on the Ceiling
- ☐ Cutlery Divider
- $\ \square$ Decorative Door Panels
- ☐ Garbage Pull Out Cabinet
- □ Glass Doors
- ☐ Lazy Susan
- ☐ Light Rail Molding
- ☐ Microwave Base Cabinet
- □ Microwave Upper Cabinet

- □ Wood Hood

Step 6: Photos & Submit

Now that you have completed the measuring guide, it is time to take some photos of your current space. Make sure to include pictures of each wall that will contain cabinets.

Include photos of any difficult areas that you may have found while drawing your area.

Contact

Online: Click on "Make An Appointment" on the homepage. Fill out the form and we will contact you right away!

Email: Attach the measuring guide and pictures and email to us at: info@clearwater-kb.com

Call: Pick Up the Phone and CALL us at: 208-400-1232

Thank you for completing your measuring guide.

A member of our design team will be in touch with you within 24 hours.

Floor Plan Design Grid

Use the grid below to draw the floor plan (aerial view) of your space. Follow each step of the guide to complete the drawing.

• Step 1: Measure your space

• Step 3: Obstacles

• Step 5: Ceiling Height

• Step 2: Doors, Windows & Room Openings

• Step 4: Appliances

• Step 6: Photos and Submit

Note: Each small square is $3" \times 3"$ and each large square is $12" \times 12"$.
